

SAMPLE LETTER

Dear Sirs,

We are writing to ask you not to approve the M&C / Dolphin Fantaseas proposal for a captive dolphin facility in St. Lucia.

The Windward Islands are blessed with such an amazing variety of natural attractions, it seems sad that instead of building on these existing natural attributes, you would consider this exploitation of your region's shared resources for the benefit of a few and to the detriment of many, including the dolphins themselves.

We would like to echo the St. Lucia National Trust's recent statement where they call into question not only the so-called education and conservation content of the proposed venture, but the sincerity of the principals in claiming the existence of such content.

Please continue instead along the path toward a long term sustainable tourism policy your country can be proud of.

Sincerely,

XXXXXXXXXX
